

Acute Care Homeopathy for Medical Professionals

*A Collaboration Between the
Academy of Homeopathy Education (AHE) and
the American Institute of Homeopathy (AIH)*

Grow & Diversify Your Practice

AHE and AIH are delighted to present a customized educational program designed for busy medical professionals interested in enhancing their practice with Homeopathy.

Grounded in the original theory and philosophy of Homeopathy, AHE's rigorous curriculum empowers practitioners and its inspirational delivery encourages further study towards the mastery of the full expression of Homeopathy for chronic care.

This course is open to all licensed healthcare providers—medical, osteopathic, naturopathic, dentists, veterinarians, nurse practitioners, nurses, physician assistants, pharmacologists and pharmacists.

Improve Clinical Outcomes

Acute-care homeopathy addresses the challenges of 21st-century medical practice.

Learn safe and effective ways to manage pain and mitigate antibiotic overuse with FDA-regulated and approved Homeopathic remedies.

AHE delivers an integrated learning experience that combines online real-time and asynchronous classroom experiences culminating in a tele-health based clinical internship so that students can study from anywhere in the world.

We Know Homeopathy

AHE's team of Homeopathy experts have taught thousands of students around the globe and are known for unparalleled academic rigor, comprehensive clinical training, and robust research initiatives. AHE ensures that every graduate develops the necessary critical thinking skills to succeed in practice with confidence and competence.

Experience, Infrastructure, and Excellence

AHE: Experienced in Delivering Online Education to Adult Learners.

- Smart and savvy tech support team helps to on-board and train even the most reticent digital participants
- Academic support professionals provide an educational safety-net
- Stellar faculty to inspire confidence and encourage students to achieve their best work
- “Fireside Chats,” forums, and social gatherings build community
- Tried and true administrative systems keep things running smoothly so you can focus on learning Homeopathy.

Making the Most of Technology

- All AHE students receive Radar Opus, the leading software package used by professional homeopaths worldwide.

Real-Time Clinical Experience: Acute Care Internship

- Upon completion of the didactic program, all students participate in an Acute Care Internship through AHE and the Homeopathy Help Network's Acute Care Telehealth Clinic "Homeopathy Help Now" (HHN) which sees thousands of cases each year.
- Upon successful completion of the internship, practitioners will be invited to participate in ongoing supervised practice through HHN.

AHE is part of a larger vision to shape the future of Homeopathy: HOHM Foundation and the Homeopathy Help Network

All clinical services are delivered in an education and research-driven model. HOHM's Office of Research has multiple peer-reviewed publications focused on education, practice, and clinical outcomes. HOHM is committed to funding Homeopathy study and research at every level.

The Academy of Homeopathy Education (AHE) operates in conjunction with HOHM Foundation, a 501c3 initiative committed to education, advocacy, and access. The Homeopathy Help Network is a telehealth clinic providing fee-for-service chronic care as well as donation-based acute care through Homeopathy Help Now.

Course Features:

- 28 week course
- 125 didactic hours
- 25 hour clinical internship

Delivery:

One live 90-minute session and one recorded 90-minute session per week

Future Pathways:

After graduation, students can apply for advanced placement in AHE's Professional Training Program.

Tuition:

- Course Fee: \$5000
- Tech Fee: \$500

Subjects:

Philosophy of Health, Healing, and Homeopathy

This subject provides an introduction to the history of complementary medicine, the evolution of homeopathy, and its fundamental laws and principles.

Homeopathy Materia Medica I

An introduction to the materia medica and clinical indications of multiple remedies

Affinities, Applied and Comparative Materia Medica

This subject provides an introduction to the comparative and therapeutic materia medica indications of multiple remedies.

Acute Prescribing in Homeopathy

Case taking and case analysis using simple repertorial matrices are demonstrated in the study of acute first aid clinical situations and relevant therapeutics.

Acute Clinical Internship

This module aims to enable the student to comprehend clinical protocol and give the student the necessary skills to participate in a clinic environment.

Faculty:

Denise Straiges CCH, RSHom(NA), PCH

Alastair Gray, PhD

Ron Whitmont, MD

Todd A. Hoover, MD, DHT

Molly Punzo, MD
